ELITE AIRTIGHT BLOCK FILLER MATERIAL SAFETY DATA SHEET

Prepared according to Regulation (EC) No 1907/2006 of the European Parliament.

Elite Airtight Block Filler

Date of preparation: 2011.03.14

Date of review: 2011.03.14

Page: 1/5

1. IDENTIFICATION OF SUBSTANCE/PREPARATION AND IDENTIFICATION OF COMPANY

Name of product Indoor acrylic paint Elite Airtight Block Filler
Application Matt acrylic paint for indoor surfaces made of various types of mineral substrates. Intended for indoor walls and ceilings of residential buildings, health care institutions and public utilities. Suitable for painting surfaces made of cement-lime plaster, gypsum plaster, drywalls, paper wallpapers, and wood based materials. Rooms to be permanently occupied by people or designated for storage of food products can be used one day after the painting is completed.

2. HAZARDS IDENTIFICATION

Classification of preparation Product not classified as dangerous according to effective regulations.
Harmful effects to human health Not applicable.
Harmful effects to the environment Not applicable.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Hazardous substances for health or environment Indoor acrylic paint is a mixture of water, styrene-acrylic resin, filling materials and refining additions.
Not applicable.

4. FIRST-AID MEASURES

General advice Walk the victim out of the place of exposure, make him/her calm. If any alarming symptoms occur, provide assistance of a physician.
In case of eye contact Immediately rinse eyes with sufficient amount of running water, holding eyelids wide open. Remember to first remove contact lenses. If irritation occurred, contact ophthalmologist.
In case of skin contact Clean the affected parts of the skin with sufficient amount of soap and water.
In case of irritation of respiratory tract Walk the victim into fresh air, make him/her calm. If any alarming symptoms occur, provide assistance of a physician.
In case of swallowing Rinse oral cavity with water (do not swallow). Do not give anything to drink and do not induce vomiting - danger of substance getting into lungs.
Prophylactically contact a physician.

5. FIRE-FIGHTING MEASURES

Product is not flammable.

Extinguishing agents

To put out the fire, use fire extinguishing agents suitable to origin of fire.

Unsuitable extinguishing agents

Not applicable.

Protective equipment

Use proper safety clothes, respiratory protection and eye protection.

6. ACCIDENTAL RELEASE MEASURES

Individual protection measures

Not required. When removing the release use replacement clothes protecting against staining.

Measures for environmental protection

Product is not dangerous for natural environment.

Measures for clearing

Collect as much paint from the substrate as possible, wash the remains with water. Sand may be used as absorptive agent.

7. HANDLING AND STORAGE OF SUBSTANCE / PREPARATION

Handling

Observe legal regulations in the scope of protection and safety. During use and drying of paint provide ventilation.

Storage

Product does not require special measures during storage. Keep according to manufacturer's recommendations placed on the label, in tightly closed packages, between 5 and 30°C

Specific application

Not applicable.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure control parameters

No components dangerous to health.

Personal protection equipment

Remove contaminated clothes. Avoid contact with skin and eyes. Provide location for washing eyes - eyes rinsing point.

Respiratory protection

Not required.

Hands and skin protection

Not required.

Body protection

Working protective clothes (PPE).

Eyes and face protection

Safety goggles.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form

Thick liquid.

Colour	White
Odour	Mild, non-irritating.
pH	8,0-9,0
Boiling point	No data.
Flash point	Product is not flammable.
Flammability	Product is not flammable.
Explosive properties	No data.
Oxidizing properties	No data.
Vapour pressure	No data.
Relative density	1,80 } 0,05 kg/dm ³
Solubility	Not soluble in organic solvents.
Solubility in water	Complete.
N-octanol/water partition coefficient:	No data.
Viscosity	50000 } 5000 mPa*s
Vapour density	No data.
Vapour rate	No data.

10. STABILITY AND REACTIVITY

Conditions to be avoided

Product stable under normal conditions, specified by the manufacturer.
Avoid insulation and frost penetration - that accelerates ageing of product.

Factors to be avoided

No data.

Dangerous decomposition products

Product is stable and does not decompose with release of dangerous products.

11. TOXICOLOGICAL INFORMATION

Acute toxicity

According to manufacturers data and there experience, the product, if used according to normal health and safety regulations for work with chemicals, does no pose any threat to life.

Manners and effects of exposure

Inhalation

May cause irritation of respiratory tract only during pneumatic application.

Skin

Does not cause irritation or sensitization.

Eyes

May cause irritation.

Swallowing

May cause irritation of digestive tract, stomach aches, nausea and vomiting.

12. ECOLOGICAL INFORMATION

Ecotoxicity	No data.
Mobility	No data.
Stability and degradability	No data.
Bioaccumulation	No data.
Other harmful effects	No data.

13. DISPOSAL CONSIDERATION

Packages and residues of product should be disposed according to effective regulations.

14. TRANSPORT INFORMATION

Transport in temperatures >0oC. Product is not subject to RID/ADR classification.

15. REGULATORY INFORMATION

The product is not subject to classification as dangerous according to the Regulation of the Minister of Health of February 8, 2010 (Journal of Laws no.27 item 140) on the specification of dangerous substances including classification and labelling

Safety symbols (S)

S 2

Regulations of ADR Agreement.

16. OTHER INFORMATION

Information included in the material safety data relate to storage, transport and safe use of the product according to our current state of knowledge. Technical specification included in the document is not a quality certificate and cannot be used as a basis for any legal claims. The obligation of the user is to use the product in a safe manner, pursuant to effective regulations of the law.

Data for preparation of the sheet

This material safety data sheet (MSDS) was compiled on the basis of information included in MSDS sheets of manufacturers of a given preparation/raw material and available publications, knowledge and experience.

Individual components of the product conform the list of CAS or EC numbers and the Regulation (EC) No. 1907/2006 of December 18, 2006
